

From Spins to Cooper Pairs and Back

2nd International Conference on Magnetism and Superconductivity in Selected Systems

September 25-30, 2016, Zakopane, Poland

Topics:

- Unconventional superconductivity and magnetism, their coexistence
 - High T_C superconductivity
 - Heavy fermion systems
- Graphene with induced superconductivity
 - Selected strongly correlated systems
 - Nanophysics and proximity effects
- Topological insulators and superconductors

Local organizing Committee:

Józef Spałek (chairman)
Jacek Dziarmaga
Andrzej Kapanowski
Adam Rycerz
Andrzej Biborski
Andrzej Kądziaława

Danuta Goc-Jagło (secretary)
Marcin Abram
Ewa Kądziaława-Major
Grzegorz Rut
Leszek Spałek
Michał Zegrodnik
